**WORKING WITH CURSES, PETITIONS, AND MORE**

Thursday, March 19, 9:30-11:30. \$65 or prepay \$44

The very idea of a "curse" having any effect on us now may seem absolutely ridiculous, but actually they can be a very REAL thing .....creating powerful and even crippling influences in many areas of our lives. Especially if it is a multi-generational event from our ancestors. Remember the Hatfield's and the McCoy's? Curses and their effects are far more common than one would ever imagine. We learn to identify and compassionately clear these for our families, now, past and future with usually dramatic results. Sandee will also teach us about using petitions, decrees and a lot of other little- known but significantly important tools that can improve our lives. This workshop is no Hocus Pocus!

**THE AWSOME POWER OF WORDS** Thursday, March 19, 1:30-3:30 \$65 or pre-pay \$44

You don't have to be a lawyer, a politician, or even an MD to know that one single word can change a person's fate. The same is true for dowsing, researching or manifesting anything. Both our unconscious and the Universe will usually take us quite literally when we speak, write, or try and create something. And remember that it also has a sense of humor! Are you ready to refine and focus your language to get more powerful results? We learn about command words and Commandments that you can use to powerfully take more authority in your life and creations. Don't miss this amazing workshop.

**HEALING & RELEASING PSYCHIC TRAUMA** Friday, March 20, 2:30-4:30 \$65 or prepay \$44

We've all heard of PTSD from big physical traumas, like soldiers home from wars , or a bad injury or accident. Did you know that we also carry PTSD from "psychic" traumas that can also seriously affect our health, relationships and other aspects of our lives?

These traumas could have come from a childhood situation for example maybe a pet died or you were bullied at school, or even in utero, but they still limit us as adults. Come and learn about how to track down, identify, and most importantly to easily clear and release some of these psychic traumas. This is not an area that most medical systems address, yet they play a critical part in our life . We all have these traumas trapped suppressed and continuing to wound us.

This skill is not only simple, but once you understand how easy and very powerful it is; you will be amazed and glad that you have taken the time to learn and master it!

We all know the basics about how to manifest our visions and goals from the spiritual to the physical levels. When it doesn't quite work out there may be some hidden or unknown elements blocking or sabotaging our success. It could be almost anything from an ancestor, to a curse, or even an allergy that can cause the interference . We may often try again and again to manifest, or "VisualEyes" or program our goals always to no avail.

Sandee has been dowsing for over 40 years and has uncovered many of these critical hidden factors as well as many solutions to resolve them. These critical factors can affect/interfere with any of our goals regarding health, relationships, finances, and even spiritual goals. Don't miss this opportunity to discover and get resolution for some of these issues, as well as significantly enhancing your dowsing skills. Help yourself and all those you love and to assist in manifesting their finest dreams. This will be a powerful and intensive workshop, so come prepared to make massive change!
